Coordinated Entry: Youth Strategies
Coordinated Entry for Youth: Design to Implementation

- How does CES account for doubled up/couch surfing?
- How is prevention and diversion services determined and for whom?
- Where and who is identified?
- What about minors?

- How do you maintain engagement with youth?
- How does assessment consider subpopulation needs?
- What are the benefits of ongoing assessment?

- What are the conditions in place to get the best information when assessing?
- Use of definition and assessment of safety that increases access.
- What information is available to complement with vulnerability data?

- How does your data center the experiences of youth of color and LBTQ?
- Does housing options match and meet the need?
- How does your data inform partnerships on the front end?
- What supports are in place to support housing stability long term?
